Subject: PRICE INCREASE FROM JANUARY 2007

TO ALL OUR CUSTOMERS, RETAILERS AND CONSUMERS

As anticipated in our circular letter of July 2006, our company has decided to **increase the price of its products from January 2007**, as described below, in consideration of the fact that we have been receiving cost increases for the past five years in turn without ever having passed this burden on to our customers.

- ? **On all synthetic grinding wheels** (including Profil grinding wheels, various diameters and hole sizes)
+10% rounded to the nearest EURO
- ? **On all grinding wheel holder supports** (GAL, RAL, NY, ... various diameters and pitches)
+10% rounded to the nearest EURO

The prices of all other articles remain unchanged.

We therefore invite you to programme your orders as soon as possible, in order to benefit from the current price list, which will remain valid until 31st December 2006.

Thanking you for your understanding, we remain

Yours truly
