TO ALL OUR CUSTOMERS

Rivalta (RE) July 2006

Subject: COMMUNICATION ON SALES PRICES

In our last communication dated January 2006, we postponed our decision to increase the sales prices of our products until 30th June.

Since both the domestic and world situation still has to get back on its feet, **we inform you that we are postponing increases until 31/12/2006 - pointing out the fact that we have made no increases at all for the last five years!**

However, if any negative changes should occur (bank rates, cost of raw materials connected to oil, silicon carbide, resins, aggregates, natural diamonds...), then we will increase the cost of grinding wheels, not the diamond type but the silicon carbide type, by 10% which is the sum of the scheduled inflation of the last five years.

Yours faithfully,

BIGGI ABRASIVI S.n.c.
di Biggi Vincenzo & C.
